Safety; Food Stamp Program; Native Americans; Risk Taking Behavior; *South Dakota; Vital Statistics

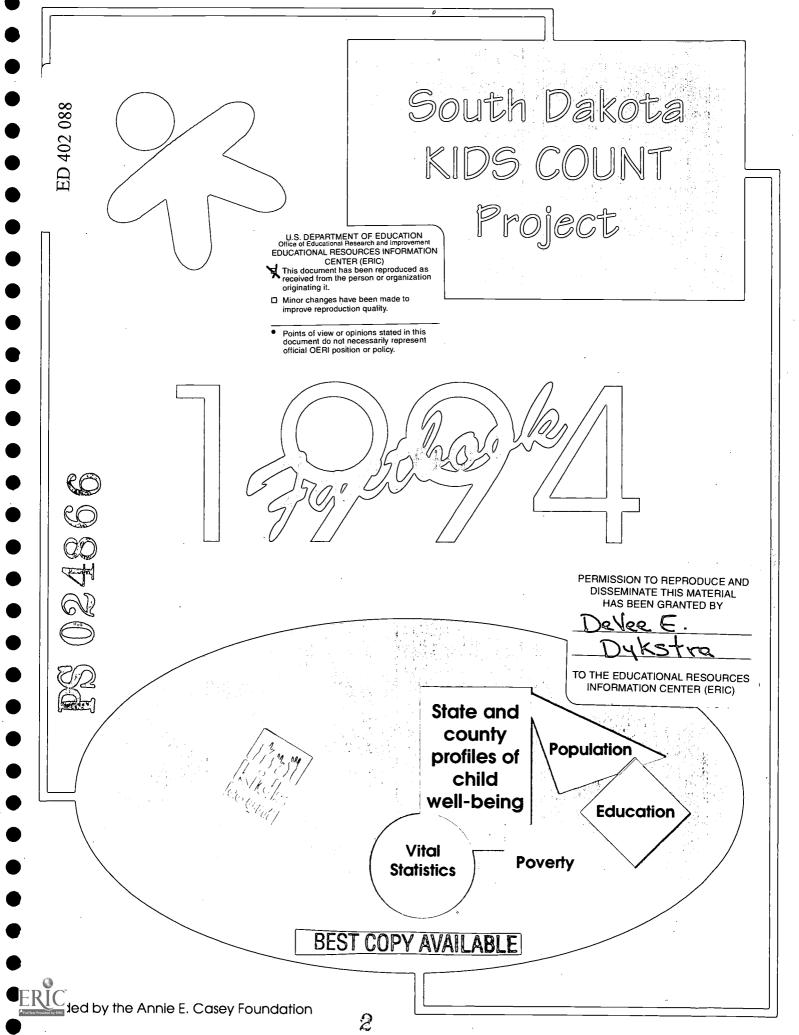

ABSTRACT

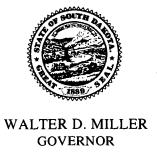

This factbook provides data on the well-being of South Dakota children. It is intended as a vehicle for policy makers, advocates, the media, and service providers to raise awareness on the status of children in South Dakota. Section 1 of the factbook is an introduction and overview on South Dakota demographics. Section 2 presents special reports on: (1) youth risk behavior; (2) the impact of social services on South Dakota children; (3) child abuse and neglect; (4) youth-related traffic statistics; (5) funding sources; (6) native American demographics; and (7) immunization. Section 3, which comprises the bulk of the book, consists of a state data table and data tables for each of the state's counties. The tables present vital statistics, family profiles, miscellaneous information, and data or statistics on population, school drop-out rates, school enrollment, child safety, and participation in the Aid to Families with Dependent Children and foodstamp programs. The section concludes with a table of indicators, such as infant mortality rate and school dropout rate, by county. Section 4 lists sources for information in the factbook and definitions of terms used in the report. (BC)

STATE OF SOUTH DAKOTA

EXECUTIVE OFFICE STATE CAPITOL, 500 EAST CAPITOL PIERRE, SOUTH DAKOTA 57501-5070 (605) 773-3212

October 26, 1994

Dear Friends:

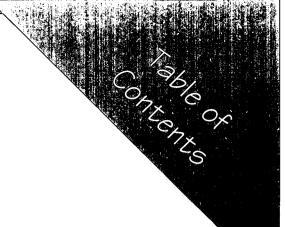

There are almost 200,000 children in South Dakota under the age of 18. Together these children provide the natural resources necessary to make South Dakota strong and ready to face the 21st century. In order to help these children tackle the challenges which will confront them, we need to make sure we take care of their needs today. Basic needs such as health, education, and a safe home environment must be met if children are to thrive and reach their full potential.

The 1994 South Dakota KIDS COUNT Factbook is an excellent means to address the above issues. The Factbook provides centralized, accurate, and accessible data on the well-being of children in our state. This data should be a vehicle for policy makers, advocates, the media, service providers, and anyone who cares about children to raise awareness on the status of children in South Dakota. The Factbook helps to target resources more productively by assessing where needs are the greatest.

I encourage you, once again, to use the information available in the Factbook in your efforts on behalf of children. This data can help strengthen the state's most vital natural resource, our children.

Sincerely Yours,

Walter D. Miller

Introduction & Overview

ERIC "
Full Text Provided by ERIC

The South Dakota KIDS COUNT Project began in 1993 with a \$400,000 grant from the Annie E. Casey Foundation. The project is administered jointly by the Youth and Family Alliance and the State Data Center of South Dakota at the University of South Dakota and is part of a national program designed to promote accountability of children through a nationwide profile of their condition. The goal is to improve the collection of national, state, and local data on the well-being of children in a way that increases awareness of their situation and provides the means to address their needs. KIDS COUNT uses this data to encourage the private and public sectors to target specific problems and groups of children for programming and fund raising efforts.

As of January 1994 there were KIDS COUNT Projects in 47 states. The goal is to have a project in every state by 1995 with each state producing their own Factbook containing county level data. In addition, the national KIDS COUNT organization produces a national Databook containing state level data only, which allows the user to compare the states on various key indicators of child well-being. These indicators include:

- Low Birth Weight Babies
- Infant Mortality Rates
- Child Death Rates
- Teen Violent Death Rates
- Percent Births to Single Teens
- School Drop-Out Rates
- Poverty Statistics
- Single Parent Families Information

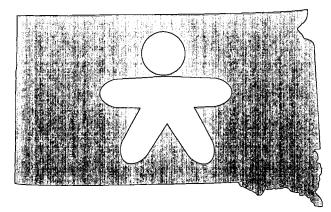

South Dakota KIDS COUNT will be tracking children in our state using the above indicators of health, education, social, and economic well-being as well as information on family income, household relationships, population, and AFDC/

Food Stamp usage for each county. The Factbook also contains information on special topics including Native American demographics, youth related traffic accident statistics, results of the

Youth Risk Behavior Survey, and age-appropriate immunization rates for two year olds. For those individuals or groups interested in grant writing, information is included on funding sources whose major grant making activity is geared toward children and family issues. The information provided in the South Dakota KIDS COUNT Factbook provides a comprehensive look at the children in our state and should be an important tool in assessing

the well-being of these children and their families.

On pages
156 and 157 of
this edition of the
Factbook there is a
table with all indicators by county. This
allows the reader to compare indicators by county at
a glance.

There were 696,004 individuals in South Dakota in 1990 according to the decennial Census. Of those, 198,462 were children under the age of 18, representing 28.5% of the population. Slightly over one quarter (27.5%) or 54,504 of those children were under the age of 5.

There were 101,464 males and 96,998 females under the age of 18 in the following racial categories:

- 172,024 White
- 1,239 Black
- 23,489 American Indian, Eskimo, and Aleuts
- 1,125 Asian or Pacific Is lander
- 585 Other

The 1990 Census also reported there were 180,306 family househoulds in South Dakota, 94, 916 were households with children. Of the households with children, 79.9% were married couple families, 16.0% were female headed families with no husband present, and 4.1% were male headed families with no wife present.

South Dakota ranked number one in the nation with respect to percent of

women in the labor force with children under the age of 6 (71.3% vs. 59.7% nationally). This 1990 figure represents a 20.4 % increase over the 1980 figures. For women with children age 6-17 this percentage rose to 81.8% in 1990 from 64.5% in 1980. For the same group of women nationally, percent-

ages rose from 63.0% in 1980 to 75.0% in 1990.

While the poverty rate for individuals and families in general has declined from the 1980 to the 1990 Census, the percentage of children in poverty has risen. The percent of all persons in poverty declined from 16.9% in 1979 to 15.9% in 1989. However, the percent of children under 18 in poverty rose from 20.0% to 20.1% during the same time period and rose from 21.4% to 23.6% for children under 5. Children under 18 living in female headed households with no husband present followed the same pattern with 44.1% living below poverty in 1979 compared to 48.8% in 1989.

Additional KIDS COUNT Indicators of Child Well-Being

Infant Mortality Rate

For the state as a whole the 5 year combined average rate equaled 9.6 per 1,000 live births, down from the 1988-92 combined rate of 9.7 per 1,000 live births. Thirty counties experienced a decrease in infant mortality rates, 22 saw an increase, and 14 counties remained the same for the 1989-93 combined average.

Percent Low Birth Weight Babies

In South Dakota 5.3% of the babies born during the years 1989-93 weighed less than 2,500 grams at birth, a 0.3% increase from the 1988-92 average. There were 34 counties with a lower percentage of low birth weight babies, 31 counties with higher percentages, and 1 county with the same percent of low birth weight babies.

Child Death Rate

The state's child death rate per 100,000 population was 32.9 for the years 1989-93. This compares to 33.4 for the years 1988-92. The child death rate saw improvement in 35 counties and stayed the same in 14. Only 17 counties experienced an increase in the child death rate.

Teen Violent Death Rate

Teen violent death rates for South Dakota declined in the 1989-93 time period compared to 1988-92. Rates per 100,000 population were 87.8 and 89.4 respectively. Over one-third (24) of the counties showed an increase while 23 declined and 19 remained the same.

Percent Births to Single Teens

There was a slight increase in the percent of births to single teens in the state during 1989-93 with 8.2% of the births occurring in the single and under 20 years old category. This was up from 8.0% during 1988-92. Slightly over half, (36) of the counties increased during the same time periods while 30 decreased.

School Drop-Out Rates

The school drop-out rate for school year 1993-94 was 3.30. This is an increase over the 1992-93 rate of 3.00.

Juvenile Crime Arrest Rate.

The juvenile crime arrest rate for calendar year 1993 per 100,000 population was 1,386. The rate for 1992 was 1,414.

The juvenile crime arrest rate is based on the Uniform Crime Report. Participation in this reporting system is voluntary so not all counties in South Dakota participate. Therefore, this indicator cannot be compared across counties.

There were 281 admissions to the five juvenile facilities in South Dakota in fiscal year 1994. This compared to 276 admissions in fiscal year 1993.

The Youth Risk Behavior Survey (YRBS) is a questionnaire consisting of 92 items that assess six priority health-risk behaviors in youth. These behaviors include intentional and unintentional injuries, tobacco use, alcohol and other drug use, sexual activity (includes behaviors that result in HIV infection, other sexually transmitted diseases, and unintended pregnancy), dietary behaviors, and physical activity.

All public, private, and Bureau of Indian Affairs (BIA) schools in South Dakota containing any students in grades nine through twelve were eligible to be included in the random sample. Each participating school submitted a list of all classes with students in grades nine through twelve which met during a given class period. Systematic equal probability sampling with a random start was used to select classes to participate in the survey. A total of eighteen schools were sampled with 1,348 respondents completing the survey.

Four different versions of the survey were handed out in each class to ensure the privacy of the respondents, each with a different ordering of the questions. As a result if someone were to glance at another person's survey they would not necessarily know which question was being answered. Students sealed their sheets in an envelope, then sealed the envelope into a larger manila envelope.

The information provided here is only a summary of the survey. The source for the data is the South Dakota Youth Risk Behavior Survey Report, 1993. The YRBS was developed by the Center for Disease Control and State Departments of Education across the United States. It was prepared for the AIDS Prevention Education Program of the South Dakota Department of Education and Cultural Affairs, and the Division of Alcohol and Drug Abuse of the South Dakota Department of Human Services.

Where possible, results of the 1992 YRBS survey have been included. In some cases questions were either not asked or asked in a slightly different manner and are therefore not comparable (NC).

The South Dakota Department of Social Services offers a wide variety of services to the children of South Dakota. Data for four of those services are presented below including Aid to Families with Dependent Children (AFDC), Title XIX Medicaid, Food Stamps, and Child Support Enforcement. Data is for December 1993 unless otherwise noted.

Aid to Families with Dependent Children provides cash assistance to help low-income single parent families pay for basic needs. To qualify, children must be under the age of 18 (19 if still in high school).

OR Services Or Children Title XIX Medicaid provides medical care for low-income people who are aged, blind, disabled, recipients of AFDC or children in foster care or subsidized adoption programs. Pregnancy-related medical coverage is available for low-income pregnant women. Medicaid also provides coverage to children from low-income families and to lowincome Medicare recipients.

Food Stamps is a U.S. Department of Agriculture program designed to help low-income families get nutritious food by using food stamps along with their own grocery money to ensure healthy diets. Eligibility is based on income levels which are established by the federal government and adjusted annually.

Child Support Enforcement locates absent parents, establishes paternity if necessary, and enforces an absent parent's obligation to support his or her children. Services are available to all South Dakotans who need help getting child support and includes working with employers to have child support payments deducted from employee's paychecks.

Aid to Families with Dependent Children (AFDC) Program

 10% (1 out of 10) of South Dakota's children who are under 5 years of age receive AFDC.

 8% (1 out of 12) of South Dakota's children who are under 14 years of age receive AFDC. Children under 14 received \$15.1 million in FY '93.

• 7% (1 out of 14) of South Dakota's children who are under 18 receive AFDC. Children under 18 receive \$17.3 million in FY '93.

Title XIX Medicaid Program

• 28% (2 out of 7) of South Dakota's children under age 5 are enrolled in the Title XIX program.

• 18% (2 out of 11) of South Dakota's children under age 14 are enrolled in the Title XIX program.

> 16% (1 out of 6) of South Dakota's children under age 18 are enrolled in the Title XIX program. (In December of 1993, 32,400 children were eligible).

> > For children whose eligibility is based on Disability, \$19.8 million was spent during 1993, \$16 million of that was for children under age 15.

 For children whose eligibility was not based on Disability, \$40.5 million was spent during

1993, of that \$36.9 was for children under age 15.

In December of 1993 51% of the individuals enrolled in Title XIX were children under age 14. For the same time period,

56% were children under age 18.

Food Stamp Program

- 20% (1 out of 5) of South Dakota's children who are **under 5** years of age are members of certified food stamp households.
- 14% (1 out of 7) of South Dakota's children **under age**18 are members of certified food stamp households.
- In November of 1993, 46% of the members of certified households were **under age 14** and these children receive an estimated \$19.7 million Food Coupons each year.
- 52% of the members of certified

households were **under age 18**. These children receive an estimated 22.4 million Food Coupons each year.

Child Support Enforcement Program

Payments were received in December
 1993 for the support of 9,827 South

Dakota children under the age of 18.

- 1,929 children in the 0-4 age group.
- 5,743 children in the 5-13 age group.
 - 2,155 children in the 14-17 age group.
- Considering Medicaid (Title XIX), Food Stamps, and AFDC Programs Together:
- 30% (3 out of 10) of South Dakota's children who are under 5 are enrolled.
- 21% (1 out of 5) of South Dakota's children who are under 14 are enrolled.
- 19% (2 out of 11) of South Dakota's children who are under 18 are enrolled.

- Payments were also received in December 1993 for the support of another 1,808 Non-South Dakota children under the age of 18.
 - 203 children in the 0-4 age group.
 - 1,108 children in the 5-13 age group.
 - 497 children in the 14-17 age group.
- Payments were received during FY 1993 for the support of 16,656 South Dakota children under age 18.
 - 4,376 children in the 0-4 age group.
 - 9,269 children in the 5-13 age group.
 - •3,011 children in the 14-17 age group.
- Payments were also received in FY 1993 for the support of another 2,757 Non-South Dakota children under age 18.
 - 406 children in the 0-4 age group.
 - 1,703 children in the 5-13 age group.
 - •648 children in the 14-17 age group.

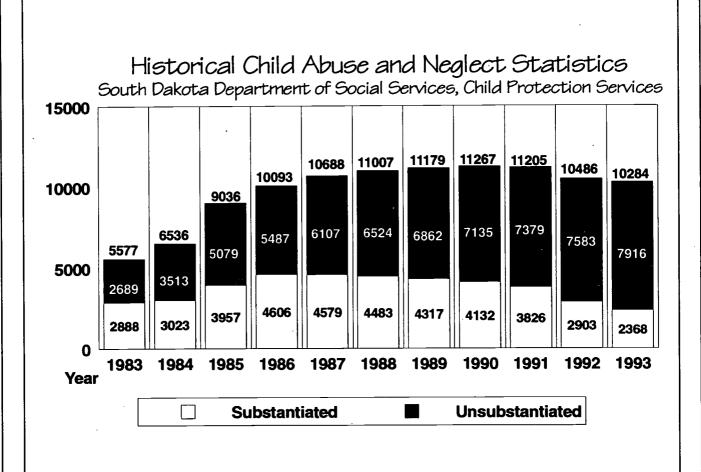

J.

Child Protection Services is an office within the South
Dakota Department of Social Services which identifies
children who are abused/neglected and assures provision of
services to those children and families where protection of the
child is a concern. Information for this special report was taken
from their "Child Protective Services to Families and Children, Fiscal
Year 1993 (July 1, 1992 to June 30, 1993) Statistical Report".

In fiscal year 1982, investigations of child abuse or neglect numbered 5,577. By 1993 this figure had risen to 10,284 cases (See figure 1). Almost a quarter (23%) of the cases were substantiated (See figure 2). Substantiated cases are those in which factual information was found to result in a determination that child abuse and/or neglect did occur. Unsubstantiated cases are those which were determined to be free of incidents or not enough adequate evidence was found to validate that abuse or neglect had occurred.

Fig. 1

Number of Substantiated and Unsubstantiated Cases, FY 1993 and FY 1992, South Dakota.

	FY 93	FY 92
Substantiated	2,368	2,903
Unsubstantiated	7,916	7,583

Of the substantiated cases:

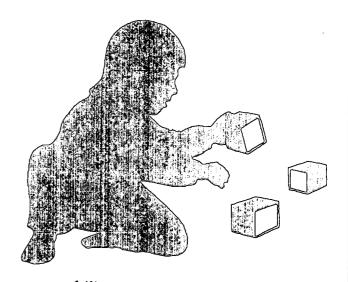

- •246 occurred to individuals age 0-2.
- 514 occurred to individuals age 3-5.
- •916 occurred to individuals age 6-11.
- •400 occurred to individuals age 12-15.
- 198 occurred to individuals age 16 and over.
- 1,063 incidences involved male children and 1,255 involved female children (there were 50 cases where the sex of the child was unknown).

Fig. 2

Substantiated Cases By Type of Abuse or Neglect (Duplicated To FY 1993, South Dakota	
F	y 93
Physical Abuse	. 488 ,456
Maltreatment2	

Following are highlights related to the 2,368 substantiated investigations:

- •1,417 of those substantiated cases or 60% resulted in the child staying in the home with some form of intervention.
- •913 parents received direct services from Child Protection Services. Of these parents 200 were provided Home Based Services. (Home Based Services allow for more contact with the family and are intended for thoses families where children are at a high risk of removal or where children have been removed and a more concentrated service is needed to increase the chances for maintaining the child in the home or for successful reunification of the child with the family.)
- •930 (39%) of the substantiated cases resulted in removal of the child.
- 16 of the substantiated cases or 0.6% involved children who were abused or neglected while in a residential placement or other institution, i.e. school, foster home.
- •In 5 of the investigations, the disposition could not be determined due to incomplete information.

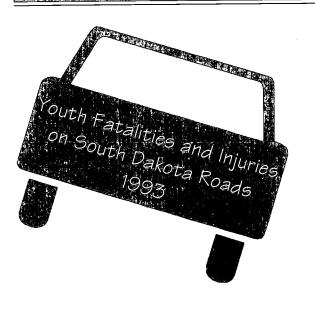

1

There were 140 fatalities on South Dakota's roads in 1993. Children and young adults nineteen and under comprised 29 of those deaths or 20.7%. In addition, there were 8,410 injuries, 2,825 occurring to individuals nineteen and under or 33.6%. This compares to a total of 35 deaths in 1992 for individuals 19 and under.

There were 2 unrestrained occupants under 5 years of age killed during 1993 in motor vehicle accidents. Among those children 5 and under who were properly restrained there were no fatalities.

Of the individuals 19 and under killed in automobile accidents, seven died in alcohol involved accidents and all seven deaths occurred in the 13-19 age group.

The table below profiles fatalities and injuries by age for South Dakota's children.

<u>Age</u>	<u> </u>	<u>talities</u>	# of In	<u>juries</u>

Source: South Dakota Department of Transportation, Accident Records Office

South Dakota recently passed a new seat belt law which makes it mandatory for every operator (driver) and front seat passenger to wear a properly adjusted and fastened seat belt. The law, however, makes no provision for passengers in the back seat (where many children ride). It remains to be seen if this law will have an affect on the above statistics.

The source for this report is the 1992 and 1993 <u>South Dakota Motor Vehicle Traffic Accident Summary</u> which is prepared by the Department of Transportation, Accident Records Office.

Finding solutions to the problems facing children in our nation and state today is a task which must be undertaken. Unfortunately the solutions, as well as the processes for finding them, take money. To make it easier to find funding sources for programs aimed at improving the condition of our children, a financial resource guide is provided below. The information below provides a starting point for those individuals looking for funding, it is by no means comprehensive.

Charles Stewart Mott Foundation

1200 Mott Foundation Building Flint, MI 48502-1851 (810) 238-5651

Initial Approach: Proposal letter. Proposals clearly marked "Grant Proposal" may be submitted to the Office of Proposal Entry.

Program Preferences: Curriculum Development, Disadvantaged and Minority Youth, Family Involvement, Pregnancy Prevention, Preschool Program, Public Education.

Typical Grant Range: \$10,000 - \$100,000

Dakota Indian Foundation

P.O. Box 340 Chamberlain, SD 57325-0340 (605) 734-5472

Initial Approach: Letter of Inquiry - 3

pages or less

Program Preferences: None - ongoing projects in Language Research and Preschool programs.

Typical Grant Range: up to \$10,000

Edward W. Hazen Foundation

 60 Madison, Madison Ave. Rm 110 New York, NY 10010 (212) 889-3034

Initial Approach: Letter of Inquiry, if interested will send application.

Program Preferences: Disadvantaged and Minority Youth, Partnerships, and School Reform.

Typical Grant Range: \$3,000 - \$20,000

Exxon Education Foundation

P.O. Box 101 Florham Park, NJ 07932 (201) 765-3004

Initial Approach: Write for application

forms and more information.

Program Preferences: Disadvantaged and Minority Youth and Mathematics. **Typical Grant Range:** \$20,000 -\$50,000

Ford Foundation

320 East 43 Street New York, NY 10017 (212) 573-5000

Initial Approach: Letter of Inquiry Program Preferences: At-risk students, Cross-Cultural Programs, Disadvan-

taged and Minority Youth.

Typical Grant Range: \$50,000 - \$1.0

million

GE Foundation

3135 Easton Turnpike Fairfield, CT 06431 (203) 373-2211

10

Program Preferences: College Preparation, Disadvantaged and Minority Youth, Educator Training, Engineering, Fine Arts, Math and Science, and Women.

Typical Grant Range: \$5,000 - \$50,000

•Geraldine R. Dodge Foundation, Inc.

163 Madison Avenue P.O. Box 1239 Morristown, NJ 07962-1239 (201) 540-8442

Initial Approach: Letter of Inquiry.
Program Preferences: Advanced Students, Disadvantaged and Minority Youth, Foreign Language Education, Math and Science, Adolescent Counseling, and Teacher Recruitment.

Typical Grant Range: \$15,000 - \$25,000

Larson Foundation

Larson Manufacturing Brookings, SD 57007 (605) 692-6115

Initial Approach: Letter requesting

information

Program Preferences: None

Typical Grant Range: under \$3,000

Hasbro Children's Foundation

32 West 23rd Street New York, NY 10010 (212) 645-2400

Initial Approach: Letter of Inquiry Program Preferences: Disadvantaged and Minority Youth, Special Education, Health/Medical, Cultural Programs, Start-up Programs.

Typical Grant Range: \$5,000 - \$250,000

International Paper Company

Two Manhattanville Road Purchase, NY 10577 (914) 397-1500

Initial Approach: Letter of Inquiry requesting application guidelines.

Program Preferences: Advanced Stu-

dents, At-risk Students, Curriculum Development, Disadvantaged and Minority Youth, Educator Training, Partnerships, Public Education, and Scholarships.

Typical Grant Range: \$1,000 - \$10,000

Jessie Smith Noyes Foundation, Inc.

16 East 34th St.

New York, NY 10016 (212) 684-6577

Initial Approach: Letter of Inquiry one or two pages in length. Include budget estimate and request application.

Program Preferences: Family Involvement, Pregnancy Prevention, Environmental Issues, Cross-Cultural.

Typical Grant Range: \$2,000 - \$50,000

John D. and Catherine T. Macarthur Foundation

140 South Dearborn Street, Suite 1100 Chicago, IL 60603 (312) 726-8000

Initial Approach: Proposal Letter Program Preferences: Basic Skills, Curriculum Development, Educator Training.

Typical Grant Range: \$5,000 - \$1.0

million

Monsanto Fund

800 North Lindberg Boulevard St. Louis, MO 63167 (314) 694-4596

Initial Approach: Send proposal. Program Preferences: No capital campaigns. Public Education, Science and Math, and Start-up Programs.

Typical Grant Range: \$100-\$20,000

Northwest Area Foundation

332 Minnesota St, Suite E 1201 St. Paul, MN 55101 (612) 224-9635

20

Initial Approach: Letter requesting information. Write for application form. Program Preferences: At-risk Students, Child Care, Disadvantaged and Minority Youth, Fine Arts, Literacy, Socioeconomic Development, and Women. Typical Grant Range: \$10,000 - \$300,000

South Dakota Community Foundation
 P.O. Box 296
 Pierre, SD 57501-0296

(605) 224-1025

Initial Approach: Telephone inquiries **Program Preferences:** Economic Development.

Typical Grant Range: \$5,000 - \$10,000

•The Andrew W. Mellon Foundation 140 East 62nd Street New York, NY 10021 (212) 838-8400

Initial Approach: Letter or telephone call requesting application guidelines. Proposal letter or proposal.

Program Preferences: College Preparation, Educator Training, Literacy Programs, Partnerships, Pregnancy Prevention, Private Education and Public Education.

Typical Grant Range: \$25,000 - \$1.0 million

•The Bush Foundation

E-900 First National Bank Building 332 Minnesota Street St. Paul, MN 55101 (612) 227-0891

Initial Approach: Letter or telephone of inquiry and request information.

Program Preferences: At-risk Students, Employment Programs, Leadership Development, Math and Science, Minorities, Preschool Programs, and Public Education.

Typical Grant Range: \$20,000 - \$500,000

•The Danforth Foundation

231South Bemiston Avenue, Suite 1080 St. Louis, MO 63105-1996 (314) 862-6200

Initial Approach: Two to three pages

of inquiry or proposal.

Program Preferences: Any programs dealing with education.

Typical Grant Range: No range.

The Hearst Foundation

90 New Montgomery Street, Suite 1212 San Francisco, CA 94105 (415) 543-0400

Initial Approach: Letter of Inquiry or proposal.

Program Preferences: Disadvantaged and Minority Youth, Private Education, and Scholarships.

Typical Grant Range: \$15,000 -\$35,000

The JM Foundation

60 East 42nd Street, Room 1651 New York, NY 10165 (212) 687-7735

Initial Approach: Summary letter accompanied by proposal.

Program Preferences: Community Programs, Economics, Public Education, and Volunteers.

Typical Grant Range: \$15,000 -

\$35,000

∘The Rockefeller Foundation 420 5th Avenue New York, NY 10036 (212) 869-8500

Initial Approach: Letter requesting informational brochure and application guidelines.

Program Preferences: At-risk Students, Basic Skills, Arts and Humanities, Partnerships. Cross-Cultural.

Typical Grant Range: \$10,000 -

\$150,000

The Spencer Foundation900 North Michigan Avenue, Suite20800

Chicago, IL 60611 (312) 337-7000

Initial Approach: Letter of Inquiry (include a telephone number).

Program Preferences: Disadvantaged and Minority Youth, Research, and School Reform.

Typical Grant Range: \$20,000 - \$90,000

The William and Flora Hewlett Foundation

525 Middlefield Road Menlo Park, CA 94025-3495 (415) 329-1070

Initial Approach: Letter of Inquiry Program Preferences: Disadvantaged and Minority Youth, AIDS Education, Educator Training, Emplyment Programs, Job Skills Training, Partnerships, Pregnancy Prevention, and Public Education.

Typical Grant Range: \$25,000 - \$400.000

W. Alton Jones Foundation

Age Appropriate Appropriate In November of 1991 South Dakota launched its Infant Immunization Initiative (I-3) Plan. The goal of I-3 is to have 90% of the state's two year olds age appropriately immunized by the year 2000. Since the plan has been in effect there has been a 37.2% increase in the number of doses of DPT given to children less than the age of two. Age appropriate immunization includes 4 diptheria, tetanus, pertussis immunizations; 3 oral polio vaccines; and 1 measles, mumps, and rubella immunizations by the the age of 2. The table below shows the percentage age-appropriate immunized, by county, for each school year and for the two years combined. The figures were obtained from records of children entering Kindergarten.

Percent Age-Appropriate Immunization by County

Ellen, Age 8

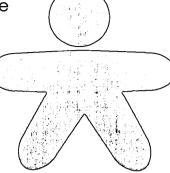

Section 4

Sources & Definitions

The information presented in the "State and County Data Tables" is divided into the following eight areas: Population, Family Profile, Vital Statistics, Poverty, AFDC and Food Stamps, Education, Safety, and Miscellaneous. Below is an overview of the sources for the information in each area, including definitions where necessary.

Source:

1980 and 1990 Census of Population and Housing, Bureau of the Census. This information was received from the State Data Center at the University of South Dakota. A (...) indicates that the data are being withheld to avoid disclosure of information for individuals. Those individuals are then included in the "other" category. A "NA" in a column means that information is not currently available. Estimates for 1991 are calculated by the State Data Center.

Definitions:

American Indian: Includes Eskimo, Aleut and American Indian.

Family Profile

Source:

1980 and 1990 Census of Population and Housing, prepared by the State Data Center at the University of South Dakota.

Definitions:

Household: A household includes all the persons who occupy a housing unit (which includes house, apartment, mobile home, group of rooms, or a single room that is occupied as separate living quarters.) Householder: One person in each household is designated as the householder. In most cases this is the person, or one of the persons, in whose name the home is owned, being bought, or rented.

Family households: A family consists of one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption.

Married couple family: A family in which the householder and his or her spouse are enumerated as members of the same household.

Related children: Related children in a family include own children and all other persons under 18 years of age in the household, regardless of marital status, who are related to the householder, except the spouse of the householder. Foster children are not included since they are not related to the householder.

Male householder family: A family with a male householder and no spouse present.

Female householder family: A family with a female householder and no spouse present.

Vital Statistics

South Dakota Department of Health

Definitions:

Infant mortality rate: An infant death is defined as occurring after a live birth with death occurring before 1 year. Rates are per 1,000 live births.

Child death rate: Child death rates are calculated for ages one through fourteen and are per 100,000 population.

Low birth weight babies: Low birth weight babies are those born weighing less than 2,500 grams (About 5 pounds, 8 ounces).

Teen violent death rate: Rates are per 100,000 population aged fifteen to nineteen and include homicide, suicide, and accidents.

Births to single teens: Statistics are for single females under the age of 20.

Women receiving prenatal care: Number and percentage based on live births to pregnant women receiving prenatal care during the first trimester of pregnancy by county of residence.

Poverty

Source:

1980 and 1990 Census of Population and Housing, State Data Center at the University of South Dakota.

Definitions:

Below poverty: The income cutoffs used by the Census Bureau to determine the poverty status includes a set of 49 thresholds arranged in a two-dimensional matrix consisting of family size cross-classified by presence

and number of family members under 18. The total income of each family or individual was tested against the appropriate poverty threshold to determine the poverty status of that family or individual. If total income was less than the corresponding cutoff, the family or individual was classified as "below the poverty level". The average poverty threshold for a family of four was \$12,674 in 1989.

"NC" (Not comparable): Poverty statistics for female householders with children were calculated for "under 6" in 1980 not "under 5" as in the 1990 Census and therefore are not comparable.

Median Family Income: The median divides the income distribution into two equal parts, one having incomes above the median and the other having incomes below the median. For families, the median family income is based on the distribution of the total number of units including those with no incomes.

Education

Source:

Department of Education and Cultural Affairs for the State of South Dakota. Statistics are for pre-K through 12.

Definitions:

Dropout rate: Dropout rates presented in the FACTBOOK are "event dropout rates". The event dropout rate represents the share of students who leave school without completing high school during a single year. The dropout rates for the South Dakota districts/schools were calculated by dividing the number of dropouts in the school year by the accumulative enrollment. An "NA" indicates there were no schools (private and/or public) in the county.

Enrollment: Total number of students enrolled in school on the last Friday of school in September.

Source:

South Dakota Department of Social Services 1992 and 1991 *Annual Statistical Report*.

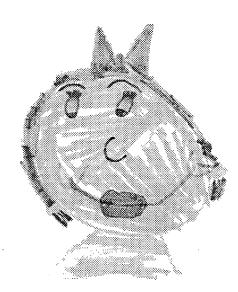

Source:

Information in this portion of the FACTBOOK was taken from a variety of sources. The juvenile crime arrest rate was calculated by the Attorney General's Office for the State of South Dakota, the Department of Corrections gathered the data on juvenile jailings, and the 1980 and 1990 Census of Population and Housing was the source for teens not in school and not in the labor force.

Definitions:

Juvenile crime arrest rate: The juvenile crime arrest rate is based on the Uni-

form Crime Reporting Data. For the purposes of uniform crime reporting, a juvenile should be counted as arrested when the circumstances are such that if he/she were an adult, an arrest would be tallied. This is strictly a voluntary program, not all law enforcement agencies across the State report Uniform Crime Reporting Data, and some agencies may participate for only part of a year. These numbers do not include any statistics from any American Indian Reservations or any other type of Federal arrests. Also, there may be some variations in department policy regarding juveniles. The rate is for juveniles 10 through 17 and is per 100,000 total county population.

Admissions to Juvenile Corrections Facilities: Total number of juveniles admitted to a Department of Corrections facility (includes the State training School, Youth Forestry Camp, and the Lamont Youth Development Center). Figures are by county of commitment which means the county of record in which the judge conducted the adjudication and dispositional proceedings. It can be the county of residence or the county where the offense iccurred.

Teens not in school and not in labor force: This figure is the percent of all individuals sixteen to twenty who are not enrolled in school or high school graduates ("high school dropouts"), and unemployed (currently seeking work) or not in the labor force (not currently seeking work).

Source:

Source for per capita money income (in the Native American Demograph-

ics Section) and females in the labor force is the Census Bureau. Source for per capita personal income is the Bureau of Economic Analysis, U.S. Department of Commerce. WIC statistics were provided by the South Dakota Department of Health, Division of Health and Medical Services; the Rosebud Indian Reservation WIC office; and the Cheyenne River Indian Reservation WIC office.

Definitions:

Per capita money income: This statistic is the aggregate money income divided by population. Money income includes: wages and salaries; net self-employment income; interest, dividends, and rental income; social security; public assistance payments; and other money income.

Per capita personal income: This statistic is the income received by persons from all sources, including all those mentioned above, as well as in kind transfer payments such as foodstamps, value of services by banks, and income received by non-profits.

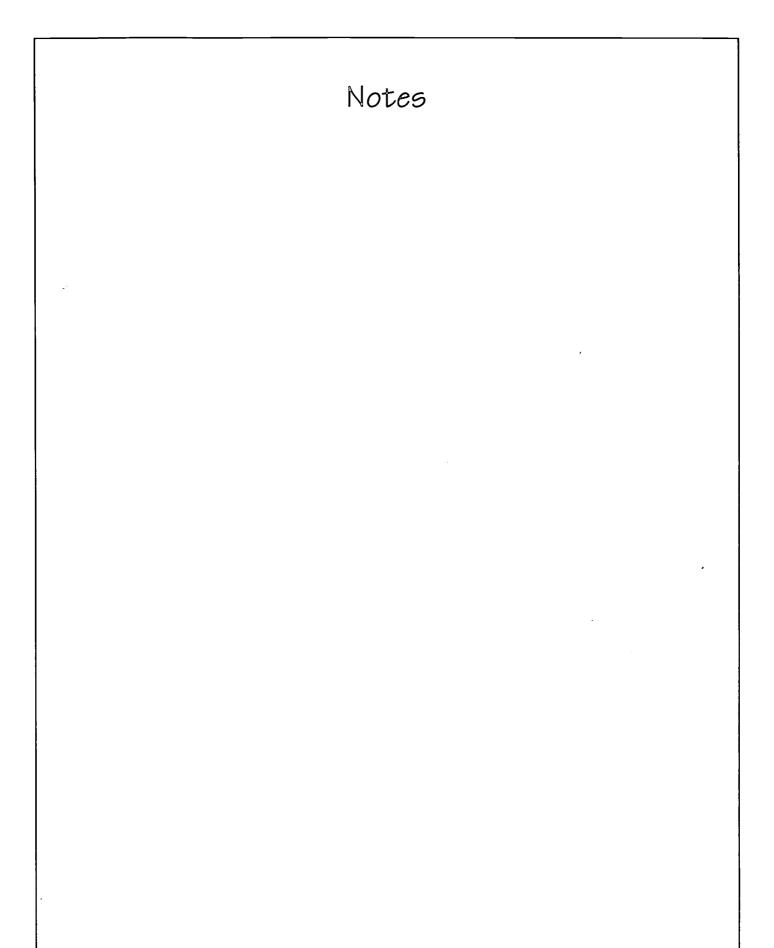

WIC: WIC is a special supplemental food program to help improve the

health of women, infants, and children through good nutrition. Eligible individuals receive nutritional education, supplemental foods, and health care assistance. The figure given is a monthly average of all women, infants, and children participating in the program in 1993. There are three separate WIC programs in South Dakota. One is run by the South Dakota Department of Health. The other two are Tribal administered programs based out of the Rosebud Indian Reservation and the Chevenne River Indian Reservation. The Rosebud office serves Mellette, Todd, Tripp, and Gregory counties while the Cheyenne River office serves Dewey and Ziebach counties. Figures obtained from the Rosebud office were included in Todd county. Two-thirds of the figures obtained from the Chevenne River office were included in Dewey county statistics, the remainder were included in Ziebach county. Though the Chevenne River and Rosebud offices are Tribal administered programs, they are available to any eligible individual.

Labor Force: The labor force includes all those employed in the civilian labor force plus members of the U.S. Armed Forces.

The staff at the South Dakota KIDS COUNT Project would like to gratefully acknowledge the following individuals and groups:

All the individuals from the various state agencies who provided data for this FACTBOOK and endured many phone calls and questions concerning the data.

All the children who drew pictures for or were in the various pictures used in the FACTBOOK.

The Vermillion Day Care Center for allowing us to come take pictures of their children and for the pictures drawn by students in their after-school program.

The staff of the Business Research Bureau for all their input and support.

Members of the Youth and Family Alliance for all their suggestions and aid in obtaining data.

Jason Dilges and Sally Seidel for their help in gathering data and proofing.

Users of the first South Dakota KIDS COUNT Factbook for all their helpful suggestions concerning experiences using the publication. Their input was invaluable in constructing this year's book.

The Annie E. Casey Foundation for the financial support which allows the South Dakota KIDS COUNT Project to continue.

The Institute of American Indian Studies at the University of South Dakota for their contribution of photographs.

Mrs. Barta, art teacher for the Vermillion elementary schools, for her assistance in obtaining children's art work.

1000 copies printed at a cost of approximately \$7.00 at State Publishing Company.

Counting the KIDS who COUNT on us in South Dakota

The Annie E. Casey Foundation (410) 547-6600 The Annie E. Casey Foundation is a private charitable organization founded in 1948. The organization is dedicated to contributing to better futures for disadvantaged children in the United States.

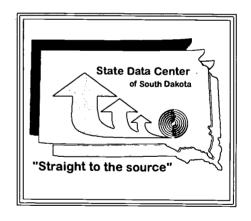

The grant making of the Annie E. Casey Foundation is limited to initiatives that have significant potential to improve policies and services affecting children and families

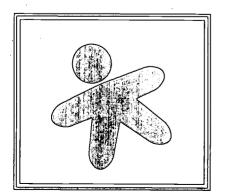

To help foster a more urgent commitment to improving life outcomes for children and greater public accountability for progress on their behalf, the Foundation provides support for KIDS COUNT.

The State Data Center (605) 677-5287

The State Data Center (SDC) was established in 1981 for the purpose of disseminating Census Bureau data to the public through state agencies, libraries and other regional organizations. It is responsible for expanding the orientation of and technical assistance in census data access and use. The SDC has expertise in data collection, data processing and publication, data analysis, presentation of data, provision of technical assistance on data usage, and distribution.

The SDC is a division of the Business Research Bureau, School of Business, at the University of South Dakota.

The Youth & Family Alliance (605)773-4766

Youth and Family Alliance (YAFA) was formed in 1990 for the purpose of administering the "Youth-At-Risk Education Trust Fund". The Trust Fund provides grants for local projects benefiting at-risk youths in the areas of early childhood projects, dropout prevention projects, career exploration and vocational projects, alternative high schools, family-based services, and health and medical services programs. Its function has broadened and YAFA now serves as the primary method through which state government coordinates programs dealing with children, youth, and families.
